

## Mona offshore Wind farm

### Non-statutory consultation

Feedback form

Energie Baden-Württemberg AG EnBW and bp are proud to be leading the development of the Morgan and Mona projects. These two offshore wind farms in the Irish Sea will help the UK to achieve its ambition of generating 50GW of power from offshore wind by 2030.

The wind farms will be located approximately 20km - 30km from the coast and be operational by 2029. Together, they will form one of the largest wind farms in the world, with a combined potential generating capacity of 3 gigawatts (GW). This is enough to power the equivalent of approximately 3.4 million UK households with clean electricity.

We're now consulting on the proposals for one of these wind farms, Mona.

To construct, operate and maintain Mona, we'll need a combination of offshore and onshore infrastructure.

Our offshore infrastructure will include the turbines, offshore substations and cables. We also need to identify the cable landfall location (the points at which cables carrying the electricity being generated reach the shore).

Once the cables reach the shore, we also need to construct onshore infrastructure, including underground cables and a substation. Ultimately, energy generated by Mona is expected to enter the transmission network (sometimes called the national grid) at a substation near Bodelwyddan in Denbighshire.

Go online to find out more about our proposals and share your thoughts: www.enbw-bp.com/morgan-and-mona

#### Your chance to take part

Our first round of consultation on the Mona offshore wind farm is running for eight weeks, from 7 June to 3 August 2022. The aim of the consultation is to introduce our project, share our early plans and give you the opportunity to have your say.

The proposals are in the very early stage and many details are still to be finalized, such as the size and number of turbines, the exact locations and details of the offshore and onshore infrastructure, and the cable landfall locations.

We'll consider all comments we receive, alongside further technical and environmental surveying work. Your feedback will help influence the detailed design of the projects and help us develop the best possible proposals.

### You can share feedback by:

- Using our project website:
   www.enbw-bp.com/morgan-and-mona
   Submit feedback on our website using our online
   feedback form and interactive map. The mapping tool
   allows you to leave comments at specific locations.
- Sending an email to: info@morganandmona.com
  We welcome all feedback and any questions you might have about the project.
- Sending written feedback to our freepost address:
  Freepost MORGAN AND MONA Send this feedback form or write a letter. You don't need a stamp.

Your details
Title
First name
Surname
Date
Company/Organisation, where applicable (optional)
Address
Postcode
E-mail
Please refer to the privacy notice on this form for details of how we will handle your data.

1. Our offshore infrastructure will include the turbines, offshore substations and cables.
Do you have any comments that could help inform the route for our offshore cable, or any other elements of the offshore infrastructure? For example, information on ecology, important viewpoints or how the marine environment is used?
2. Our onshore infrastructure will include an underground cable.
Do you have any comments on the cable corridors that we've identified through our early work on the project? For example, information on ecology, cultural heritage, properties or land use?
3. Our onshore infrastructure will include building a new substation.
We've identified a broad search area where we think a new onshore substation could be located. Do you have any comments that could help inform a detailed location and design for the substation? For example, information on ecology, cultural heritage, properties or land use.

4. As we progress our project, we'll be looking carefully at how we manage our construction and how we can reduce any impacts on local communities.
Do you have any comments that could help us develop our plans for construction? For example, important local roads to consider or dates or times to avoid.
5. We're looking at ways that our project can support jobs and skills in the local area and wider region.
Do you have any comments on how we can help support jobs and skills?
6. Do you have any comments on how we are carrying out our consultation?

# Privacy statement

Your privacy matters to us and we are transparent about how we use your data.

### Why are we collecting this data?

- To support us developing and planning the Mona offshore wind farm and associated infrastructure
- To allow us to keep you up to date as the project progresses and to inform you of any future consultations
- To meet our statutory obligations under the Planning Act 2008 and any other relevant legislation

### Who are we sharing this information with?

 With our contractors and suppliers whom we have contracts in place with to support in the development of the project, for example Camargue who act on behalf of EnBW / bp  With relevant government bodies, such as the Planning Inspectorate and the Department of Business, Energy and Industrial Strategy to supporting the Project planning application process

### How long we will keep that information?

 We will keep the information for the time required to fulfil the purposes of the project

### How do I update my data or find out more?

If you wish to update your information or make any requests, please contact:

• Email: info@morganandmona.com

Phone: 0800 860 6263
